

THE DEFINITIVE ANSWER ON PRICING AND AVAILABILITY OF NEW AND USED CISCO SYSTEMS

Dear John

CRB launches a new product offering - Managed WAN Services

We have just completed the rollout of a managed WAN service for a large private health corporation with offices around Australia. Following the successful completion of this project, CRB is pleased to announce that we are now offering Fully Managed WAN Services within Australia.

CRB has teamed up with Australia's 3rd largest carrier "Nextgen Networks" to be able to offer a Managed Router service where you outsource WAN hardware, maintenance and support for a single fixed monthly payment:

- perfect if you don't have or don't want to have Network Engineers Employed to manage your network, allow CRB to manage it on your behalf
- conserve capital by paying for the cost of hardware over its useful life
- Cisco Qualified Engineers
- Network Design, implementation and Support
- Support for delay sensitive applications such as Voice and Video
- Network Monitoring and Alarming with Solarwinds Orion
- Historical Network Reporting on Traffic Stats, CPU & Memory Utilisation, Application reporting with Netflow
- Managed Firewall
- Switched Data Services
- Co-Location Services

For further information please phone Anthony Gown on 0401-728-140 or email anthony@crb.net.au
